

Bob,

I wanted to thank you for the excellent experience we had with your company.

On a holiday weekend I was notified that our office building had experienced a flooded office from a leaking bathroom faucet. Within two hours of calling, I was met by 2 trucks with 2 complete crews to assess and start working on removing the water. They worked like a well-oiled machine! One took pictures and documented the damage while the others began unloading equipment from the truck and extracting water from the building. I am so grateful for the professionalism of those teams. The documentation provided by Spotless was invaluable to our insurance company in settling our claim. The follow-up cleaning of our carpets left our office looking cleaner than it had looked in a long time.

I can highly recommend Spotless Cleaners to any business owner or homeowner who finds themselves in the unfortunate situation of experiencing water damage to a home or office. I have posted comments to this effect on Angie's List for public review; and if you have any potential customers who need to speak to someone locally for a reference about the quality of work they can expect, I would be happy to provide that reference for you. Please feel free to have them call me.
